

Evolving Affordable Training Systems for OICW and Related Factors - Individual & Crew-Served Systems

14 August 2001

Sam Whitfield- DOT, Systems, Ft. Benning Training IPT CO-LEADER Rod Gerdes- Alliant Techsystems Inc., Training IPT CO-LEADER

	Report Docum	entation Page
Report Date 14Aug2001	Report Type N/A	Dates Covered (from to)
Title and Subtitle Evolving Affordable Training Systems for OICW and Related Factors - Individual & Crew-Served Systems		Contract Number
		Grant Number
		Program Element Number
Author(s) Whitfield Same Gordes Po	on	Project Number
Whitfield, Sam; Gerdes, Ron		Task Number
		Work Unit Number
Performing Organization Name(s) and Address(es) DOT Systems, Ft. Benning		Performing Organization Report Number
Sponsoring/Monitoring Agency Name(s) and Address(es) NDIA (National Defense Industrial Association) 211 Wilson Blvd, STE. 400 Arlington, VA 22201-3061		Sponsor/Monitor's Acronym(s)
		Sponsor/Monitor's Report Number(s)
Distribution/Availability Approved for public releas		
		Symposium, Exhibition & Firing Demonstration document contains color images.
Abstract		
Subject Terms		
Report Classification unclassified		Classification of this page unclassified
Classification of Abstract unclassified		Limitation of Abstract UU
Number of Pages 18		

Γ

Users Vision

Soldier's Individual Combat Weapon – well into 21st century!

- Provides revolutionary capability
- Offsets aim error associated with iron sights
- Provides more efficient lethal mechanism

- 20mm High Explosive
- 5.56mm Bullets

- Laser Range Finder
- Ballistic Computer
- Fuze Setter
- Electronic Aim Point

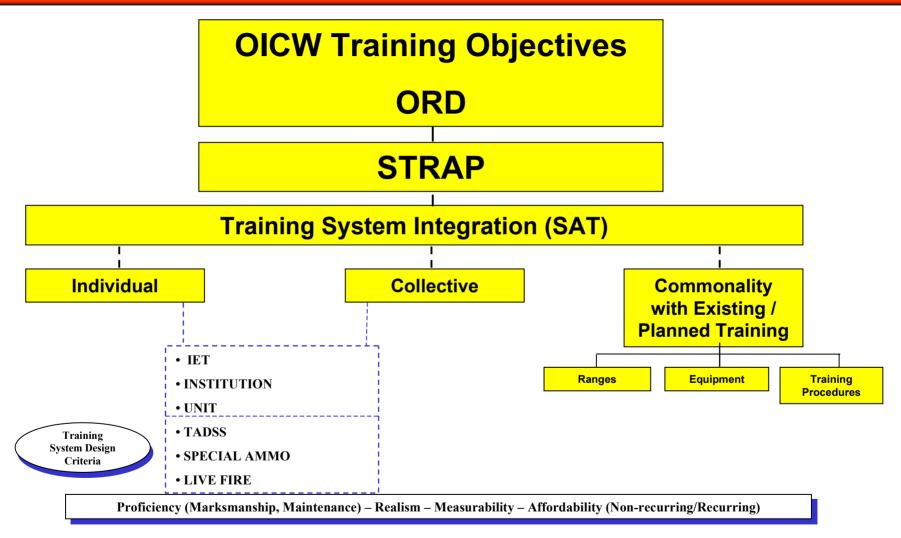

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these data are restricted by the special license agreement provisions contained in Contract No.DAAE30-00-C-1065. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

Training Concept Approach

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these data are restricted by the special license agreement provisions contained in Contract No.DAAE30-00-C-1065. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

OICW TRAINING CONCEPT PLAN

- Develop and Implement the most effective and efficient Training Strategy for the SOLDIER using the OICW.
- Use live, virtual, and constructive simulations linked to MANPRINT and weapon design to make it easy to train.
- Leverage existing simulations and training ranges (including Land Warrior upgrades) to the fullest extent.
- crawl, Walk, Run to meet the Training Objectives.

Training Concept Guidelines

OICW Training Concept Guidelines

- OICW training development goals shall be to: Maximize the Soldier/systems required proficiency/capability, and:
 - **▶** Minimize training resource increases
 - ▶ Accomplish OICW individual and collective training requirements with an emphasis on simulation
 - **▶** Leverage legacy weapons training systems
 - ▶ Minimize level of dependence on OICW live fire
 - Maximum use of existing ranges
 - ▶ Minimize new special targetry procurement programs

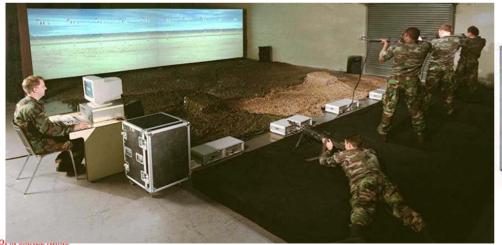

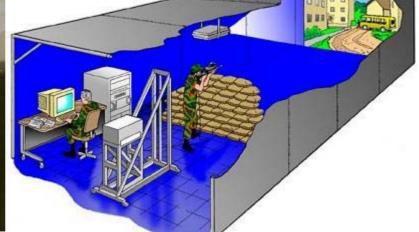

Training Concept Considerations

- Make maximum use of existing ranges
- Minimize new special targetry procurement programs
- Use simulations to decrease service and training ammunition cost and allocations
- Identify follow-on training device/virtual and live simulation requirements

 Minimize institutional and unit training time without sacrificing Soldier proficiency

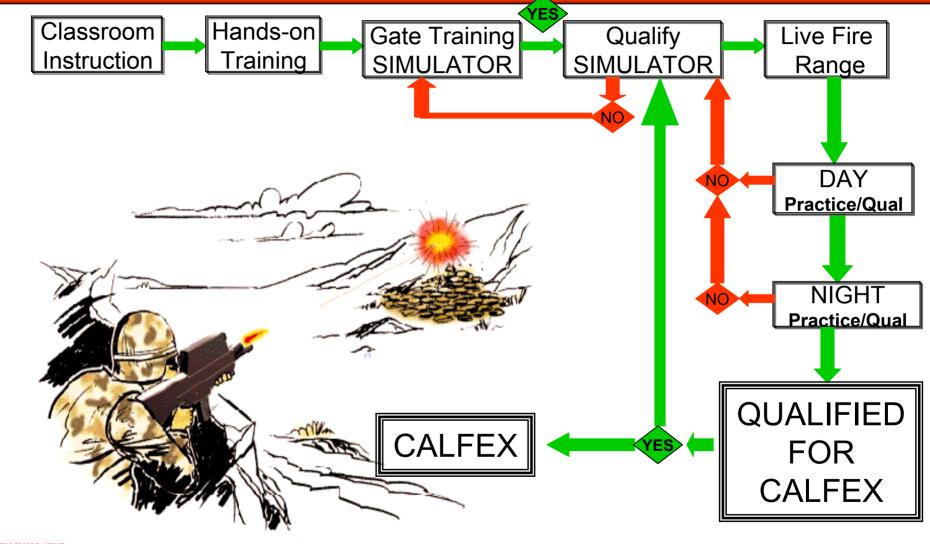

Unit Gunnery Strategy

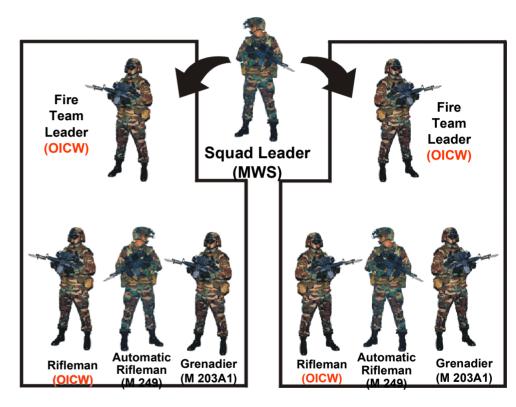

The Government's rights to use, modify, reproduce, release, perform, display, or disclose these data are restricted by the special license agreement provisions contained in Contract No.DAAE30-00-C-1065. Any reproduction of technical data or portions thereof marked with this legend must also reproduce the markings.

Proposed 20MM Marksmanship Program

- Pre-Fire Phase
- Basic Firing Phase
- Advanced Firing Phase
- Decision Firing
- Qualification Firing

Pre-Fire Phase

- ▶ Classroom Instruction:
 - Introduction To The Weapon
 - Fire Control Functionality
 - Assembly and Disassembly
- ▶ Fundamentals Of Marksmanship

Basic Firing Phase

- ▶ Simulation-based
- ▶ Three ranges Three firing positions
- Lasing techniques
- Day only
- Untimed
- ▶ All optics (DVO, Video, Thermal, Iron sights)

Advanced Firing

- Simulation-based
- All positions
- All optics
- Laser exercises
- Untimed and timed
- ▶ Single multiple, and moving targets
- Day and night

Decision Firing

- ▶ Simulation-based
- Weapon selection
- All positions
- All optics
- Variable ranges and targetry
- ▶ Timed targets
- Day and night

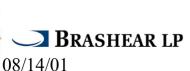

Qualification Firing

- Simulation and live fire
- ▶ Pre-qualification done in simulation and live fire
- Qualification in live fire
 - Day and night
 - → HE/KE decision making
 - → TP only
 - Use existing ranges

Trigger Pull Summary (Semi-Annual)

fire
TP)
TP)
HE)
(TP)
<i>'</i> \ \ \ \ \

1238 Sim rounds per man/per year 180 TP rounds live per man/ per year 10 HE/AB service rounds per year

Training Aids, Devices, Simulators & Simulations (TADSS)

- **Training Aids/Devices**
 - Mock-Ups (I)
 - ▶ Disassembly Mat for Hands-On (I/S)
 - ▶ Maintenance Trainer (I/S)

- ▶ Engagement Skills Trainer 2000 with Pre-Planned Product Improvements - for marksmanship, collective, and shoot-don't shoot training (I/S)
- ▶ Dismounted Infantry Module (DIM) -- CCTT link (S)

- ▶ Conform to existing and future Tactical Engagement Simulation Systems, i.e., One Tactical Engagement Simulator System(I/S)
- **Range Instrumentation**
 - Developing Requirements to sense rounds (X/Y/Z Coordinates)
 - PM Instrumentation Training & Target Systems, STRICOM
 - **New Generation of Army Targetry System**
 - Location Of Miss And Hit (LOMAH) like, Doppler Radar Technology

OICW Will Leverage Current Technologies

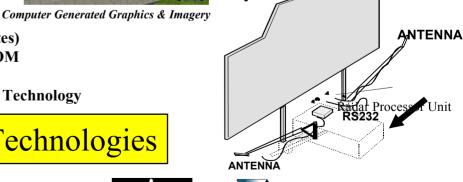

Software will score,

send signal to a flare

DIM

Conclusion

- OICW is evolving an affordable training system that will maximize the Soldier/systems required proficiency and capability. These approaches can also apply to other individual and crew-served systems. The end results are:
 - **▶** Minimizes training resource increases
 - Accomplishes individual and collective training requirements with an emphasis on simulation
 - **▶** Leverages legacy weapon training systems
 - ▶ Minimizes level of dependence on live fire
 - **▶** Maximizes use of existing ranges
 - ▶ Minimizes new special targetry procurement programs
